## Behavioral Health Interpreter Training (BHIT)

This intensive workshop is designed to immerse English-speaking staff in the principles and practices of utilizing interpreter services in order to provide linguistically and culturally appropriate services for consumers served in a behavioral health setting.

## WHO SHOULD ATTEND?

*English-speaking direct service staff, including mental health specialists, clinicians, case managers, peer specialists, nurses, doctors, and others who utilize interpreters in order to provide behavioral health services.*

*Please note: a separate training will be held for reception/front desk staff and the content will be tailored to the needs of reception staff.*

## REGISTRATION PROCESS

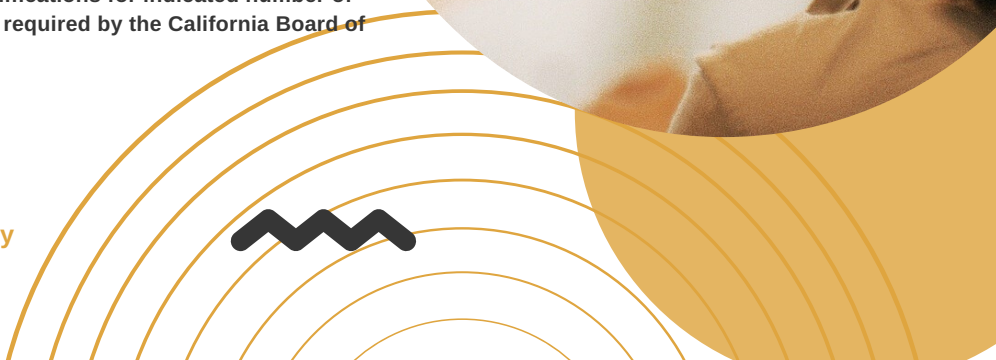

Space is limited! To register, use link in email sent by QI. For questions, please email Quality Improvement using the email address below.
