

COUNTY OF SOLANO
FLEET SERVICES SUPERVISOR

DEFINITION

Revised 5-12-04

To supervise, plan and coordinate the day to day activities and operations of the County's fleet and stationary maintenance and repair program; oversees activities at a large maintenance and fueling site; serves as a member of the department's supervisory team.

CLASS CHARACTERISTICS

This is first-line supervisory class that is responsible for directing repair and maintenance tasks on a variety of light and heavy vehicles and equipment. This position assigns work and provides complex technical advice and assistance to Equipment Mechanics assigned to Fleet Operations. The positions assigned to this class, carry out necessary activities without direction except as new or unusual circumstances arise. This class is distinguished from Fleet Manager by the latter's overall responsibility for managing the County's fleet of vehicles and equipment.

SUPERVISION RECEIVED AND EXERCISED

Receives general supervision from the Fleet Manager.

Exercises supervision over assigned technical staff.

EXAMPLES OF DUTIES - *Duties may include but are not limited to the following:*

Supervises, assigns and oversees work of mechanics to ensure the safe repair and diagnosis of equipment used by the County; dispatches mechanics verbally and through work orders to perform specific repairs; monitors and inspects completed work; conducts performance evaluations on assigned staff.

Manages the maintenance and repair of refueling facility; places fuel orders.

Coordinates repair shop activities; seeks most effective methods to have maximum number of vehicles in service at all times; issues rental vehicles; uses Fleet Management System to generate repair information, making entries for labor charged, commercial shops used, and parts inventory movement; processes invoices from vendors and performs computer data entry.

Performs various administrative tasks to facilitate the service function of the department; answers telephones and greet customers; maintains parts and supply inventory as needed to ensure equipment repair and maintenance can be performed in a timely manner and distributes parts and supplies to maintenance personnel; special orders parts, hand tools and small equipment; coordinates repair and maintenance activities with various groups involved in the process;

Performs diagnoses to determine defects on vehicles and equipment coming into the County Garage for service; advises and assists subordinates in major repairs and difficult mechanical diagnoses; consults with superiors on difficult or major repair issues.

Prepares repair schedules and determines priority of work to be performed; maintains service records for mobile equipment; issues service reminder notices to using departments; develops and schedules preventative maintenance programs.

Monitors and directs the use of proper personal safety gear; ensures a safe work environment including handling of hazardous materials and recycling.

Recommends fixed asset purchases for the shop to the Fleet Manager.

Maintains professional knowledge in applicable areas and keeps abreast of changes in job-related rules, statutes, laws and new business trends; makes recommendations for the implementation of changes; reads and interprets professional literature; attends training programs, workshops and seminars as appropriate; stays abreast of changes in manufacturers specifications; informs mechanics of changes in maintenance and repair procedures; serves as safety coordinator and facilitator for the repair facility.
