

COUNTY OF SOLANO
PLANNING TECHNICIAN

DEFINITION

Performs a variety of technical level assignments in support of professional planning staff; develops maps and graphics to be used in land use planning.

CLASS CHARACTERISTICS

This is a journey level, technical classification. Incumbents must become fully aware of the operating procedures and policies of the work unit, and become fully knowledgeable of applicable codes and regulations. Incumbents are expected to perform a full range of duties with only occasional instruction or assistance. Work is normally reviewed on completion and for overall results.

SUPERVISION RECEIVED AND EXERCISED

Receives direction from the Principal Planner and Department Systems Analyst.

Exercises no supervision.

EXAMPLES OF DUTIES –*Duties may include but are not limited to the following:*

Provides the Environmental Management Department with accurate and up-to-date thematic, parcel, land use, zoning, political boundary, staff report maps, and other special query maps and graphics for the interpretation and implementation of Land Use Policy and related issues; produces and maintains non-digital and GIS spatial maps and related databases; prepares maps and graphics for planning presentations, public hearings, staff reports and historical map archives.

Researches and collects data from a variety of sources and agencies in a variety of formats.

Reads and interprets blueprints, maps, planning regulations for assisting planning staff and/or responding to inquiries.

Provides information to the public regarding the General Plan, zoning, application procedures, and current projects at the front counter and over the telephone.

Processes minor planning applications and reviews business licenses and building permits for compliance with planning regulations.

Assists in the tabulation and completion of survey and other data.

Inputs information into the appropriate GIS format by using direct software features or by scanning, digitizing paper maps or entering data into formatted database tables; follows the appropriate sequence of GIS software processing.

Prepares maps, signs, transparencies, display graphics, report covers and other graphic art products in support of Planning and related activities; sets up exhibits, materials and equipment needed for public session presentations and other meetings.

Develops and maintains the departmental GIS system using ArcView; updates and edits GIS themes including land use, zoning and general plans, etc; creates new GIS themes from existing digital and non-digital data from outside sources; maintains desktop GIS themes based on ArcView layers; compiles, revises and reproduces base and thematic maps for use by staff, the public and other agencies; maintains the map collection and paper assessor's map books.

Performs quality control by cross referencing errors; proofreads maps and tables, inspecting GIS generated maps and graphics.

Instructs department staff in the use of basic GIS software.

Maintains professional knowledge in applicable areas and keeps abreast of changes in job-related rules, statutes, laws and new business trends; makes recommendations for the implementation of changes; reads and interprets professional literature; attends training programs, workshops and seminars as appropriate.
