

Rebuttal to Argument Against Measure S
Sunday, August 28, 2016

Word Count: 248/250

Measure S keeps our tax dollars right here in Suisun City, where they do the most work for all of us.

Measure S ensures funding for neighborhood police patrols, quicker response from 911, fire department resources, street and sidewalk maintenance, youth and senior programs and keeping streetlights on.

All for just a penny on the dollar.

Plus, Measure S will prevent the state from taking our dedicated portion of the sales tax, giving us the same protections as Vacaville, Benicia and Fairfield.

Suisun City is a good community getting better. And we do it with a lot less money than our neighbors. Fairfield takes in \$1,576 per person in tax revenue, while Suisun City has gotten by on just \$652. Suisun City residents don't pay a utility tax like most cities, and we have the lowest sales tax rate in Solano County.

All cities have been hurt by a long recession and Sacramento taking local tax revenue for state programs; Suisun City is no exception. Even though revenue was cut, we still need money for police, safe streets and community programs.

If Measure S passes, the state won't be able to take our money, and we'll have the resources we need to protect ourselves.

It allows us to control the destiny of our community.

Measure S is a straightforward plan for Suisun City to protect, improve and guarantee important public safety, youth and senior programs with money that can't be taken away from us.

Vote Yes on Measure S to Keep Suisun City Moving Forward.
