**A RESOLUTION OF THE CITY-COUNTY COORDINATING COUNCIL OF THE COUNTY OF SOLANO AUTHORIZING REMOTE TELECONFERENCE MEETINGS FOR THE PERIOD OF APRIL 27, 2022 THROUGH MAY 26, 2022 AS A RESULT OF THE CONTINUING COVID-19 PANDEMIC STATE OF EMERGENCY**

WHEREAS, on March 4, 2020, Governor Newsom issued a Proclamation of State of Emergency in response to the COVID-19 pandemic; and,

WHEREAS, the proclaimed state of emergency remains in effect; and,

WHEREAS, on March 17, 2020, Governor Newsom issued Executive Order N-29-20 that suspended the teleconferencing rules set forth in the California Open Meeting law, Government Code section 54950 et seq. (the “Brown Act”), provided certain requirements were met and followed; and,

WHEREAS, on June 11, 2021, Governor Newsom issued Executive Order N-08-21 that clarified the suspension of the teleconferencing rules set forth in the Brown Act, and further provided that those provisions would remain suspended through September 30, 2021; and,

WHEREAS, on September 16, 2021, Governor Newsom signed AB 361 that provides that a legislative body subject to the Ralph M. Brown Act (“Brown Act”) may continue to meet without fully complying with the teleconferencing rules in the Brown Act provided the legislative body determines that meeting in person would present imminent risks to the health or safety of attendees, and further requires that certain findings be made by the legislative body every thirty (30) days; and,

WHEREAS, California Department of Public Health (“CDPH”) and the federal Centers for Disease Control and Prevention (“CDC”) caution that the Delta variant of COVID-19, currently the dominant strain of COVID-19 in the country, is more transmissible than prior variants of the virus, may cause more severe illness, and that even fully vaccinated individuals can spread the virus to others resulting in rapid and alarming rates of COVID-19 cases and hospitalizations (<https://www.cdc.gov/coronavirus/2019-ncov/variants/delta-variant.html>); and,

WHEREAS, the CDC has established a “Community Transmission” metric with 4 tiers designed to reflect a community’s COVID-19 case rate and percent positivity; and,

WHEREAS, Solano County currently has a Community Transmission metric of “high” which is the most serious of the tiers; and,

WHEREAS, in the interest of public health and safety, as affected by the emergency caused by the spread of COVID-19, this committee deems it necessary to find that meeting in person would present imminent risks to the health or safety of attendees, and thus intends to invoke the provisions of AB 361 related to teleconferencing provided that all teleconferenced meetings are conducted in such a manner that protects the statutory and constitutional rights of the parties and the public appearing before this legislative body;

NOW, THEREFORE, BE IT RESOLVED, as follows:

1. The recitals set forth above are true and correct.
2. This committee finds that meeting in person would present imminent risks to the health or safety of attendees and therefore, shall conduct its meetings in accordance with Government Code section 54953(e) and all other applicable provisions of the Brown Act.
3. This Resolution shall take effect immediately upon its adoption and shall be effective until the earlier of (i) April 25, 2022, or such time the Board of Directors adopts a subsequent resolution in accordance with Government Code section 54953(e)(3) to extend the time during which this committee may continue to teleconference without compliance with paragraph (3) of subdivision (b) of section 54953.

### **TITLE / SUBJECT**

Plan Bay Area 2050 Implementation Strategies

### **BACKGROUND**

The Metropolitan Transportation Commission (MTC) completed the Bay Area’s long-range transportation and land use planning document in 2021 and called it “Plan Bay Area 2050” (PBA 2050). The plan is an integral part of MTC and the Association of Bay Area Governments (ABAG) decision making process for allocating state and federal planning and capital funds related to transportation and housing. The plan is statutorily required to address the State’s goal of reducing greenhouse gas (GHG) emission by 19% or more for light-duty vehicles by 2035, while planning for enough housing at all income levels. This requirement was difficult to achieve, and it took MTC almost 3 years of public outreach, technical meetings and consensus building to develop the strategies to meet this mandate.

As a result of their efforts, MTC created 35 Implementation Strategies for PBA 2050 that were included in the following four categories: 1) Transportation, 2) Housing, 3) Economy and 4) Environment. These strategies had to be bold and innovative in order to collectively address the State’s ambitious GHG reduction requirement. It was clear early on that not one of the four quadrants alone could achieve this and is indicative of the partnerships needed at the region and county level to implement the plan.

Attachment A includes the list of PBA 2050 Implementation Strategies. STA staff will provide a brief overview of each categories and status of the progress being made within Solano County by either STA or another agency or agencies.

### **RECOMMENDATION**

### **TITLE / SUBJECT**

County Collaborative on Housing Update

### **BACKGROUND**

In March 2021, the County Board of Supervisors designated the Solano Housing Investment Partnership (SolHIP) as the Association of Bay Area Governments (ABAG) County Collaborative on Housing and authorized the Solano Transportation Authority to serve as the fiscal agent for the administration of Regional Early Action Planning (REAP) funds for countywide housing opportunities. This action was the result of coordination efforts by the STA, the County of Solano and the seven cities to further link transportation and land use planning in 2018 as the Bay Area region began developing the Housing CASA compact and the State began to develop funding programs to address the State housing crisis.

The STA formed the SolHIP in 2019 by providing transportation planning funds to match planning fund contributions from the local agencies as part of the State’s SB 2 and Local Early Action Planning (LEAP) grant funds for housing. The funds provided technical assistance for each jurisdiction to identify potential housing projects to advance, particularly affordable housing located in Priority Development Areas (PDA) near regional and local transit services.

The SolHIP was recognized by MTC/ABAG and the State Housing and Community Development (HCD) as a model for other counties given our collaborative planning process and technical assistance provided to each agency. In 2020, the STA, with strong support from MTC Commissioner and County Board of Supervisor Jim Spering, was successful in developing the Suburban Housing Incentive Pool (SubHIP) pilot program with MTC to leverage transportation funding for affordable housing developments within PDAs. The SubHIP pilot program ultimately provided \$4 million to advance affordable housing projects near the Fairfield Vacaville Hannigan Station and the Vacaville Transportation Center that will result in over 320 affordable housing units which were not initially planned to be implemented as part of market rate housing developments. The City of Vacaville City Council recently approved the affordable housing developer and is anticipated to advance the project to construction in the coming year. The affordable housing project located in Fairfield is currently under construction.

Building on the success of the STA’s SolHIP and the SubHIP efforts, the County Board of Supervisors’ action for the County Collaborative on Housing enabled the STA to coordinate with ABAG on the use of State REAP funding to assist in funding the current Regional Housing Needs Allocation effort and the update of

the cities and the County of Solano’s Housing Elements. The cities of Benicia, Dixon, Rio Vista, Suisun City, Vacaville and Vallejo and the County of Solano opted to participate with STA in obtaining the necessary consultant support and leveraging the REAP 1.0 funding to update the seven agencies’ housing elements. The City of Fairfield opted not to participate in the Housing Element Partnership because they had already selected a separate consultant to complete their General Plan Update and their Housing Element; however, they will still get the benefit of the collaborative through information/data collection and sharing.

County Collaborative on Housing Status Update:

STA staff assisted the County of Solano in administering the RHNA process by managing the selected consultant contract (Placeworks) and coordinating planning staff discussions at meetings of the Solano County Planning Directors group. Solano County was the only county in the Bay Area that opted to proactively undergo the RHNA Sub-delegation Process whereby the County and the cities developed a housing allocation methodology consistent with the State and Region’s goals for housing production. This effort was completed in December 2021 with the State’s Housing and Community Development officially concluding their review and approving Solano’s RHNA Allocation Plan. During this timeframe, the County Collaborative began the Housing Element Updates in coordination with the participating cities and county.

Since December 2021, the County Collaborative has held a series of two countywide virtual workshops with the first set of workshops held on January 26<sup>th</sup> and 27<sup>th</sup> to kick off the effort and allow for input on the overall process and schedule. The second countywide virtual workshop was held on March 30<sup>th</sup> in the afternoon and in the evening to focus on the progress made and on the Housing Needs Assessment requirement for the Housing Element Update. A third round of public workshops is planned for late May/early June to discuss the Fair Housing section of the Housing Elements. In addition to the countywide virtual workshops, Placeworks, the consultant, has been active with each city and the County by providing individual study sessions and other community specific meetings. A list of past meetings held is included as Attachment A to this report.

The STA’s role with regard to the Housing Element Updates is to administer the funding and consultant contract for the participating agencies and to report back to MTC/ABAG on the progress of the collaboration. It was a substantial effort at the staff level to coordinate with each participant in establishing budgets, selecting a consultant, developing funding agreements and organizing kick off meetings for each participating city and county. This effort results in cost savings for portions of the Housing Elements that require the same data and reporting, and it provides a countywide standard for reporting the information. In addition, the County Collaborative was proactive by initiating the consultant procurement process early at a time when consultant services are in high demand for Housing Element updates statewide. Solano County is much further ahead in this process as a result and is on track to have all eight local agencies complete their Housing Element Updates by HCD’s deadline of January 2023.

Next Steps:

Through the SolHIP and County Collaborative, the STA will continue to coordinate with MTC/ABAG to identify and obtain additional funding resources to assist in the implementation of housing projects in Solano County, particularly affordable housing projects located in PDAs adjacent to regional and local transit services. This includes coordinating on the next round of State REAP 2.0 funding and potentially

leveraging One Bay Area Grant (OBAG) funding for transportation infrastructure projects with development projects planned in PDAs as part of a continuation of the previous SubHIP pilot program.
