Purpose

This section of the budget document sets forth the Government Code Sections and administrative directives, as issued by the Office of the State Controller, pertaining to the form and content of the Annual County Budget. It describes the format of the Solano County Budget document and includes County ordinances and specific policies adopted relating to the County Budget.

Legal Basis

The Government Code specifies the content of the budget, budget adoption procedures and dates by which actions must be taken. (Government Code 29000-29144)

Forms

The budget document must be on forms prescribed by the State Controller in consultation with the Committee on County Accounting Procedures. (Government Code 29005)

Permission to Deviate

A county may add to the information required, or show it in more detail, providing the financial information and the classifications or items required to be included in the budget are clearly and completely set forth. Any change proposed by a county in the arrangement of the information required on the forms shall be subject to review and approval by the State Controller.

Funds and Accounts

Fund and account titles to be used by counties in the preparation of the budget are those contained in the publication, <u>Accounting Standards and Procedures for</u> <u>Counties</u>, issued by the State Controller. Special districts required to be included in the budget document must use fund and account titles contained in the publication, <u>Uniform Accounting System of Special</u> <u>Districts</u>.

Basis of Accounting

The general operating group of funds (governmental fund type) are budgeted and accounted for using the modified accrual basis of accounting. This group of funds is summarized on Schedule 1 of the budget document.

Internal service and enterprise funds are budgeted and accounted for using the full accrual basis of accounting.

The basis of accounting used in this budget document is required by directive of the State Controller and Governmental Generally Accepted Accounting Principles (GAAP) and prescribed by pronouncements of the Governmental Accounting Standards Board (GASB).

Budget Goals and Objectives

The County Budget sets forth the foundation for major Board policy actions and provides a fiscal "road map" for the direction of County government to follow, now and in the future. As such, the County Budget represents the single most important document that is prepared, reviewed and approved on an annual basis. It is the document that reflects the County's fiscal commitment to the Strategic Plan and its goals and objectives.

The intent of the Budget document is to:

- Provide a document in a format that is user friendly and readable in order to give the public a clear understanding about County government operations and funding. The County Statistical Profile gives the reader a comprehensive profile of the County.
- Identify the strategic goals and objectives upon which budget allocations are made and to measure the progress of County Departments and operations in fulfilling their departmental goals and objectives as well as the County's overall mission.
- Provide the Board and the public with a clear understanding of revenues and expenditures in the areas of Public Safety and Health & Social Services.

While many improvements have been incorporated into the process and the presentation of the Budget over the last several years, we have maintained the basic principles, goals and objectives of Solano County as the underlying foundation for the Budget. These include:

> The Budget must be balanced so estimated revenues equal appropriations.

- Wherever possible, the Budget should be balanced with ongoing and known revenue sources equaling ongoing and reasonably expected expenditures.
- To the extent possible, one-time money should not be used for ongoing operations.
- Service levels should be maintained at the highest level, within funding constraints.
- Prudent Contingencies and Reserves should be increased in good years to guard against future uncertainties.
- Discretionary revenues should be maximized to allow the Board options for the funding of beneficial local programs and services.
- Accuracy and accountability in estimating and monitoring both revenues and expenditures throughout the fiscal year.
- The Budget should, wherever possible, anticipate and make provisions for uncertain funding for County-operated programs.

In reference to the stated goals and objectives above, there are several policy guidelines that were followed and maintained in developing this Budget:

- Proposition 172 funds have been allocated to maximize public safety benefits.
- Realignment revenues have been allocated to Health & Social Services.
- General Fund Contingencies and Reserves have been increased, whenever possible, to safeguard from future uncertainties.

Budget Policies of the Board of Supervisors

In addition to the legally <u>required</u> duties, there are certain actions to implement the budget process, which the Supervisors <u>may</u> take:

- Changing the arrangement of information on budget forms, upon approval of the State Controller. (Government Code 29005)
- Designation of data, in addition to available financing and financing requirements included in departmental estimates. (Government Code 29006)
- Selection of method of presenting supporting data for salaries and wages appropriations. (Government Code 29007)
- Designation of Auditor or Administrative Officer to receive budget estimates. (Government Code 29040, 29042)
- Designation of Auditor or Administrative Officer to submit estimates in event of nonperformance by responsible official. (Government Code 29045)
- Designation of Administrative Officer to prepare budget tabulation on prescribed forms. (Government Code 29061)
- Designation of Administrative Officer to hold budget hearings and recommend changes to tabulation. (Government Code 29062)
- Adoption of alternate Proposed Budget Procedures. (Government Code 29065.5)
- Authorization of additional appropriation controls and designation of official to administer controls. (Government Code 29090)
- Approval of new positions and fixed assets prior to Final Budget adoption. (Government Code 29124)
- Designation of official to approve transfers and revisions of appropriations within a budget unit. (Government Code 29125)
- Approval of budgetary adjustments. (Government Code 29125, 29126, 29126.1, 29127, 29130)
- Designation of official to whom Auditor shall submit statements showing conditions of budget appropriations and estimated available financing (Government Code 29131)

Adopted Budget Policy

The FY2006/07 Budget Hearings were held on Monday, June 26, 2006.

The Board of Supervisors has designated the County Administrator as the official responsible to carry out all County budgetary responsibilities not specifically reserved to the Board of Supervisors, Auditor or State Controller.

Chapter 2 of the Solano County Ordinance provides additional information on established County policies. Sections 2-40 through 2-47 specifically address the duties of the County Administrator. Section 2-45 delineates the County Administrator's role in budgetary matters. These duties include:

- Develop budget instructions and policies, revenue estimates, and departmental budget targets to guide departments in budget preparations.
- Recommend to the Board of Supervisors an annual County operating budget based on revenue projections, budget targets and proposed goals, objectives, work programs and projects developed by the various departments.
- Recommend to the Board of Supervisors a capital budget based upon long-range plans for acquiring, constructing or improving buildings, roads, and other County facilities.
- Recommend to the Board the acquisition and disposition of real property, except for County roads, easements, and rights-of-way which shall be the responsibility of the Resource Management Director.
- Establish a control system or systems to insure the various County departments and other agencies under the jurisdiction of the Board of Supervisors are operating within their respective budgets.
- Recommend requests to the Board for unforeseen and unbudgeted expenditures.

- Approve fund transfers and budget revisions within appropriations.
- Recommend to the Board any fund transfer requests requiring Board action under state law.
- Establish policies for acquiring additional or replacement fixed assets.
- Keep the Board informed of the financial status of the County and of other matters of major significance which affect the County.

Budget and Fiscal Policies Adopted for FY 2006/07

Budget Policy

- 1. <u>General Fund Emphasis:</u> Budgets should be prepared with a goal that the FY2006/07 Net County Cost or General Fund Contribution to programs will not exceed the FY2005/06 level, pending the outcome of actual Year End Fund Balance. Wherever possible, reductions in General Fund Contribution or Net County Cost should be sought. Increases in General Fund Contribution or Net County Costs may be proposed, consistent with Board's priorities and County Strategic Plan.
- 2. <u>Use of Tobacco Master Settlement Agreement</u> (MSA) funds: If necessary, the Requested Budget may include the use of MSA dollars to fund existing County health programs, releasing General Fund dollars for other priorities; and involve the MSA Advisory committee to consider the impacts on the MSA strategic plan and the use of the MSA funds.
- 3. <u>Contributions to Outside Organizations:</u> The Requested Budget should not include contributions to outside organizations, such as the State Courts.
- 4. <u>Maximize the Board's Discretion:</u> Wherever legally possible, revenues are to be treated as discretionary resources, rather than as dedicated

to a particular program or service. The goal is to give the Board as much flexibility as possible in allocating resources to local priorities including the Goals and Objectives outlined in the County Strategic Plan. To the extent allowed by law, fund existing programs or activities with dedicated funding sources. This will free up scarce discretionary resources to fund Board priorities.

- 5. <u>Pursuit of New Revenues:</u> Pursue additional revenue sources, to the fullest extent possible for all services, as well as total cost identification (including indirect costs) for fee setting purposes. To the extent possible, any new revenue sources for programs receiving General Fund support should be used to offset the cost of existing staff and programs, rather than funding new staff or programs.
- 6. <u>Discretionary Programs</u>: Do not propose new discretionary programs unless the programs are fully funded in FY2006/07 and continue to do so in future years.
- 7. <u>Pursue Operational Efficiencies:</u> Explore reducing expenditures and maximizing revenues through consolidation of functions and streamlining of County operations.
- 8. <u>County Share:</u> If funding is reduced, there should be no increased County share for programs funded primarily from non-General Fund sources, unless increased County share is mandated or the program is a high priority for the Board of Supervisors and the amounts are reasonable in light of the County's fiscal situation.

General Fund Reserve Policy

On October 31, 2005, the Board reaffirmed its policy to maintain General Fund reserves equal to 5% of the County's total budget, excluding inter fund transfers and Contingency equal to 5% of the General Fund total budget.

The following will guide how reserves should be

used:

- 1. Use the General Fund reserve to phase into fiscal distress periods gradually, focusing on maintaining the Board's priorities.
- 2. To the extent possible, use the General Fund reserve as the last resort to balance the County Budget.
- 3. Keep a minimum of \$10 million in the General Fund reserve at all times. To the extent possible, the spending of General Fund reserves should not exceed \$4 million a year.

Strategic Plan Integration into Budget Process

This year to the extent possible, General Fund discretionary resources were used to finance high priority programs, as defined by the County's Strategic Plan, updated most recently on May 16, 2006. The County Goals include:

Improve the health and well-being of those who live and work here

- Improve the lives of children and their families
- Improve the health and well being of seniors
- Improve the skills and abilities of those most vulnerable

Ensure responsible and sustainable land use

- Enhance the quality of life by preserving the existing development pattern of distinct and identifiable cities and communities
- Support economic development
- Protect agriculture as an important component of the County's economy
- Protect the County's main economic components -- agriculture and military aviation

Maintain a safe community

• Reduce delinquency and crime

- Ensure public safety
- Improve quality of life and community pride

Invest resources in and for the future

- Plan and provide for the County's future service needs
- Enhance both internal and external communication and promote responsive customer service
- Ensure the County's long-term organizational effectiveness

As a result of integrating Strategic Plan goals into the budget process, the FY2006/07 Proposed Budget includes:

- An Accrued Leave Reserve totaling \$6.1 million which covers the 5-year General Fund liability.
- A Deferred Capital Projects Reserve to maintain County buildings of \$10.7 million.

Benchmark Counties

When reviewing the County of Solano's economic health, our County government's financial capacity, and our delivery of services to residents of unincorporated areas, we inevitably compare ourselves from the current year to past years.

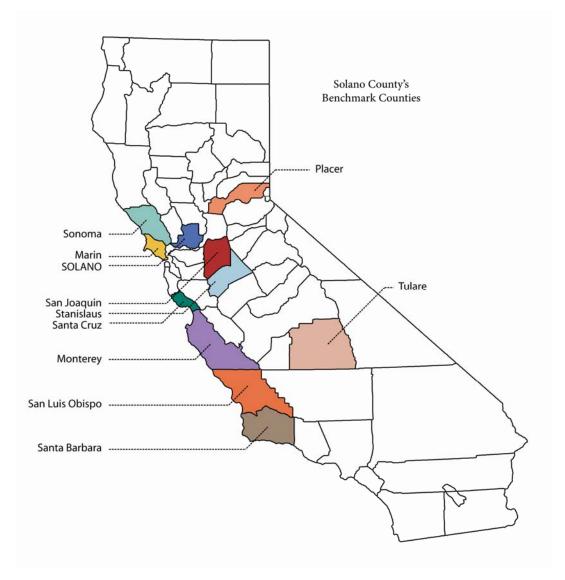

Additionally, the question of how we compare with other counties is often asked. This leads to the question: Which counties should we use for comparison purposes?

County Statistical Profile

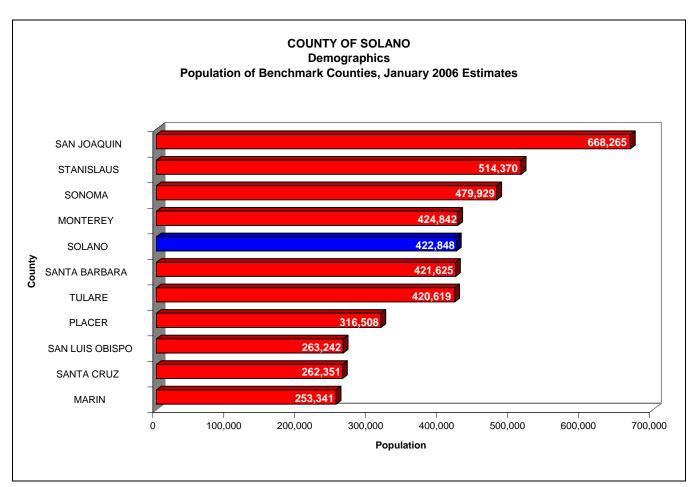

We have selected a group of ten counties that are used for comparisons in the following five tables. The County of Solano has the following characteristics in common with each of these counties:

- They are the ten counties closest to Solano in population – four with higher population and six with lower population.
- A total population of more than 250,000 but less than 670,000.

- All include both suburban and rural environments.
- > None contain a large metropolitan city.
- Seven are coastal or Bay Area counties.
- Most have the same urban growth vs. rural preservation issues facing Solano County.

County Statistical Profile

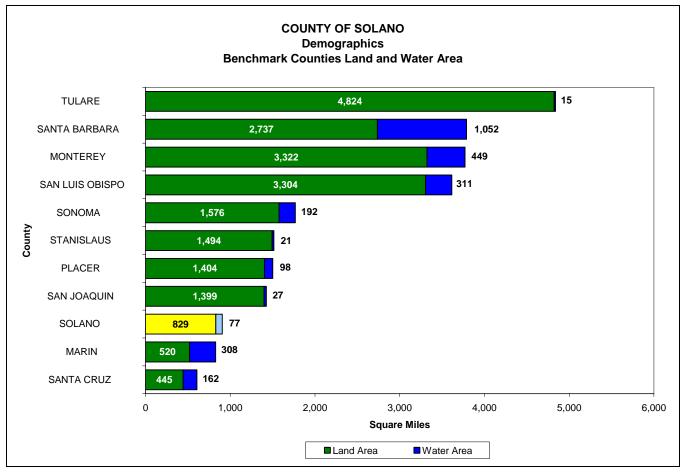

Source: California Department of Finance, Demographic Research Unit

According to the U.S. Census Bureau, Solano County consists of a total area of 907 square miles. Land area is represented by 829 square miles and water area by 77 square miles. Water area is 8.5% of total area.

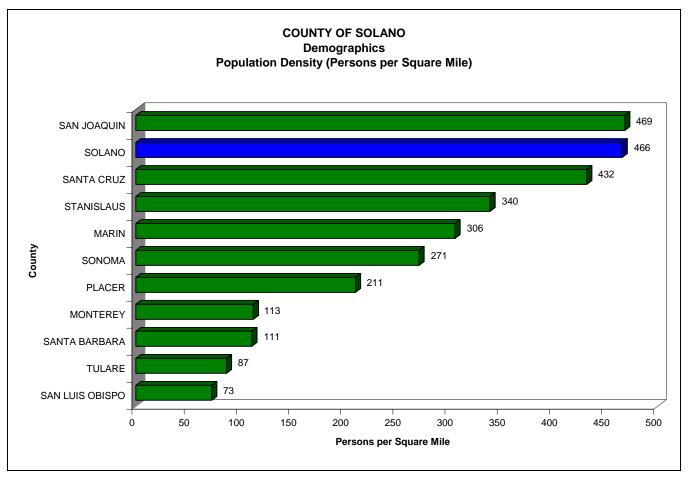

San Francisco Bay, Suisun Bay, the Carquinez Straits, and the Sacramento River provide the County with natural borders to the south and west. Rich agricultural land lies in the north area of the County while rolling hills are part of the south area. Over 60% of the County land area is comprised of farmland.

Despite having a smaller than average land and water area when compared to the Benchmark counties, Solano County's proximity to the Bay Area and the fact that the County contains the largest protected marsh habitat brings up complex issues for County government.

As shown in the following tables entitled <u>Population Density</u> and <u>Percent of Population</u> <u>Residing in the Unincorporated Area</u>, while Solano County has a high per-square-mile population density, its residents are concentrated in cities. According to the California Department of Finance's <u>January</u> 2006 City/County Population Estimates, 82% of California residents live in cities and 18% in unincorporated areas. In contrast, in Solano County, 95% of residents live within the County's seven cities. This phenomenon was not an accident. In the early 1980's the residents of the County passed the Urban Growth Initiative, Measure A, which limits most urban growth to incorporated cities.

This unique mixture of a sizeable urban population and a large rural/agricultural base creates many problems and challenges for County government. These include:

- Balancing continuing urban growth pressures with the need to preserve agriculture and open space.
- Problems in the transition zones between urbanized areas and agricultural areas (i.e., land use, pesticide use, dust, odors and vermin).
- Coordination of infrastructure transitions from the urban areas to the rural areas (i.e., reliever routes, upgraded feeder streets/roads, flood control).
- A large urban driven need (as indicated by the high density per square mile) for health, public assistance and law and justice services, with little County government control or influence in promoting initiatives in the urban environment that would create long-term improvements.

Population and Demographic Profile

The following charts entitled <u>Population by Age</u> <u>Group</u> and <u>Population by Percentages in</u> <u>Various Age Groups</u> show that from the 1990 Census to the 2000 Census, the 45 to 59 age group of Solano County residents was the fastest growing population segment with an increase of 26,954 residents, a 57.4% increase. This age group increased by 12,439 more residents from the 2000 Census to the 2004 Census projections, a 16.8% increase. In 2004, this segment represented 20.6% of the County population, just behind the 25 to 44 age group representing 28.5% of the County population.

In the last four years, from the 2000 Census to the 2004 Census projections, the 60+ age group of Solano County residents has become the fastest growing population segment with an 18.2% increase, or 9,226 new residents. This segment of the County's population is projected to continue to grow at a faster rate than the other age groups.

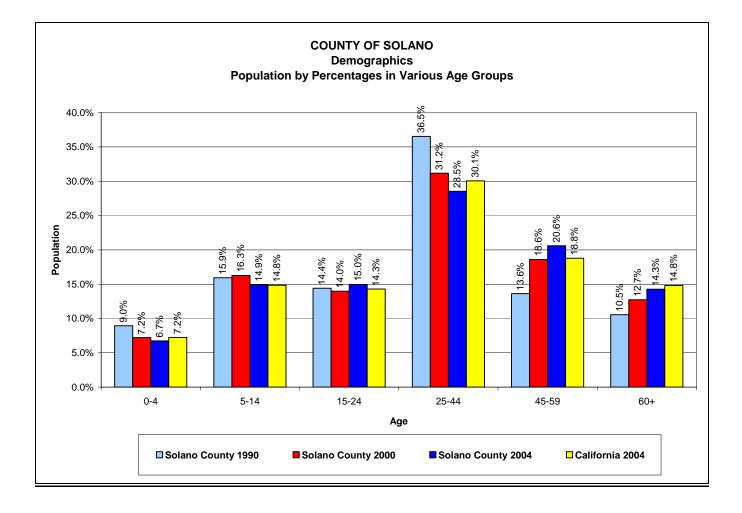

Source: California Department of Finance, Demographic Research Unit

While the population in Solano County grew 21.8% between the 1990 Census and the 2004 Census projections, the 0 to 4 age group decreased (8.3%) and the 25 to 44 age group has decreased (4.8%). The County currently has less 0 to 4 age group residents now than it did in 1990 while the 60+ age group has increased 64.9% during the same time period. In 2004, 1 in every 7 County residents was over the age of 60.

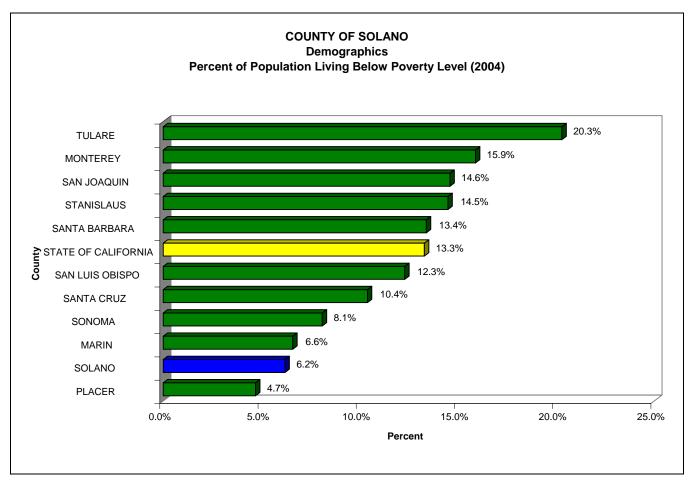

The age demographics in Solano County are very similar to those of the State of California and

the trend of these demographics indicators are consistent with the current "graying" of a large segment of the American population. The "Baby Boom" generation (those born between 1946 and 1964) represents a significant segment of the nation's population, and they will begin reaching retirement age (65) in 2011. Over 34.9% of Solano County's population and 33.6% of the State's population are over 45 years of age.

Population Living in Poverty

The U. S. Census Bureau's <u>2004 American</u> <u>Community Survey</u> poverty level figures show 6.2% of the County population living at or below poverty level. The U.S. Census Bureau's statistics on poverty provide an important measure of the country's economic well-being and are sometimes used to assess the need or eligibility for various types of public assistance. Poverty statistics presented use thresholds prescribed for federal agencies by the Office of Management and Budget (OMB) and are estimates. While the County's level is not acceptable, it should be noted that only one of the comparison Counties has a lower rate. The County's rate is a significant improvement over the 13.3% State rate for population living at or below poverty level.

Population by Ethnicity

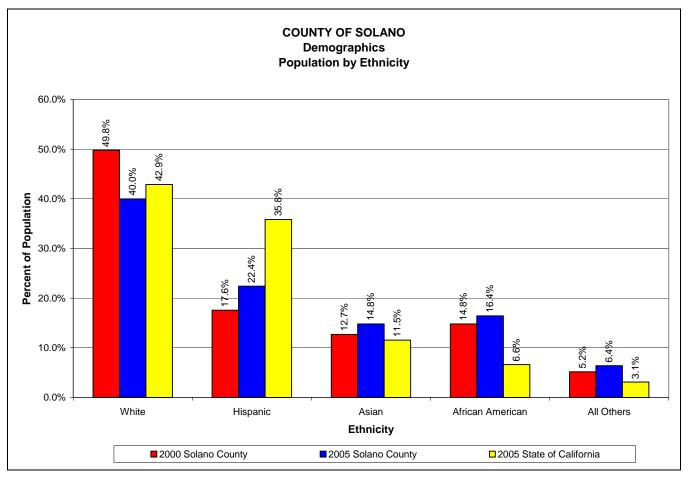

The following chart entitled <u>Population by</u> <u>Ethnicity</u> reflects July 1, 2000 and 2005 population projections by ethnicity. This data indicates that the percentages of ethnic minorities have increased in all ethnic segments, as well as on an overall basis. The White segment of the population has decreased (13.7%) over the last five years and (18.8%) over the last 15 years. In the year 2000, the White category represented almost 50% of the population; in 2005, this segment represented 40% of the population

The most significant increase occurred in the Hispanic segment with a 36.9% increase over

the 2000 data and represents 22.4% of the 2005 County population.

The Asian segment posted a 25.3% increase from the 2000 population data and represents 14.8% of the County population. The African American segment followed with a 19.2% increase since 2000 and represents 16.4% of the 2005 County population.

The Other segment (which includes Native Americans, Alaskan, Hawaiian, Pacific Islanders and Multi-race segments) population increased 33.1% over the same five-year period and represents 6.4% of the County's population.

Employment and Economic Growth

Solano County has experienced steady employment growth along with its 12.6% increase in population in the last decade.

The graph below shows the County's unemployment rate to the comparison counties and the State of California.

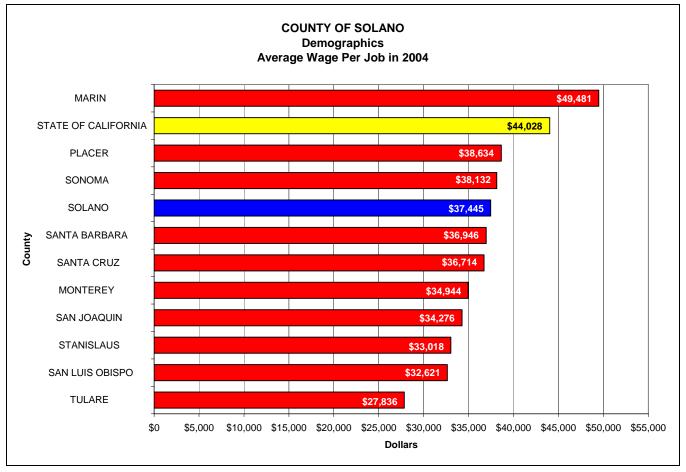

Source: California Employment Development Department

The high number of County residents who currently work out of the County, approximately 42% of the workforce, indicates that in most industries the number of employment opportunities lag behind the number of working County residents who have skills in each specific industry. The job growth in Solano County shows moderate increases totaling 20.3% over the 14-year period since 1990. The Association of Bay Area Governments (ABAG) projections through 2010 show Solano County job growth rates at approximately 2% percent per year, or 9% over the next 5 years. At this pace, a significant percentage of County will continue to residents commute to neighboring counties to work.

Between 2000 and 2005, 11,900 new jobs were created. The fastest growing County industries since 2000 by overall percentage gain are:

- Financial and Leasing sector with 1,550 new jobs, or 18.1%.
- Professional and Managerial Services with 1,610 new jobs, or 16.5%.
- Health and Education Services with 3,970 new jobs, or 13.6%.
- Arts, Recreation and Other Services with 2,100 new jobs, or 11.8%.
- Construction with 1,140 new jobs, or 10.9%.
- Retail sector with 1,150 new jobs, or 6.5%.
- Transportation and Utilities sector with 310 new jobs, or 5.9%.

As a result of moderate job growth, Solano County's average wage per job of \$37,445 is slightly above the median range of our comparison counties, as demonstrated by the following chart.

County Statistical Profile

The graph below represents the distribution of the 148,640 jobs projected by ABAG in various industries in Solano County in 2005. The 148,640 jobs in these industries include:

- 2,010 in Ag and Natural Resources;
- 2,300 in Information;
- 5,530 in Transportation and Utilities;
- 10,130 in Financial and Leasing;
- > 11,380 in Professional and Managerial Services;
- 11,560 in Construction;
- 16,700 in Government;
- 17,200 in Manufacturing and Wholesale;

- ▶ 18,750 in Retail;
- 19,890 in Arts, Recreation and Other Services; and
- 33,190 in Health and Education Services.

If the local workforce were able to fill all the available jobs in Solano County, we would still need approximately 61,000 additional jobs to allow all of our residents to live and work here. In reality, it's unlikely that there would be enough jobs in appropriate industries for the existing County workforce of 210,000.

Solano County Commuting

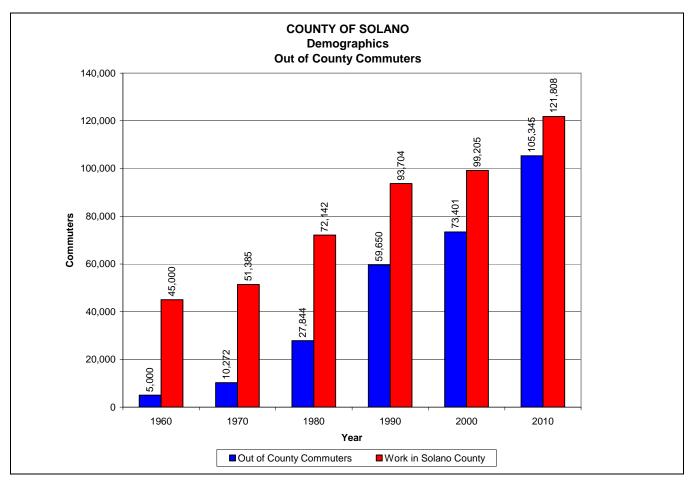

The graph below represents the numbers of average daily commuters for a typical spring weekday. It includes all commuters who reside in Solano County using any means of transportation commuting mainly to the following neighboring counties: San Francisco, San Mateo, Santa Clara, Alameda, Contra Costa, Napa, Sonoma, and Marin.

The forecasts were compiled by Metropolitan Transportation Commission using the ABAG's Projections 2003 data and Census 2000 journey-to-work data.

Solano County commuters increased 23.1% from 1990 to 2000 while the population increased 15.9% during the same ten-year period.

While the majority of the County's workforce work in the County, in the year 2000 approximately 42% of the County residents commuted outside of Solano County to work. Of those commuters, 37.4% commuted to neighboring counties. In the year 2010, it is projected that 46.4% of the workforce in the County will commute to work.

With all but one of the County's cities positioned along the Interstate 80 and 680 corridors, Solano County provides the commuter with access to Bay Area jobs and a lower living cost.
