

**Los Rios community College District
Argument Against Measure E**

Vote NO on MEASURE E. How many students in Solano County attend the Los Rios Community College District?

And this proposed \$650 million bond is on top of \$150 million bond approved in 2018 by the Davis School District. As we approach a BILLION DOLLARS in general obligation bonds, this unrestrained borrowing will create a mountain of debt that our younger generation will have to pay. Send Measure E back to the Trustees for a reasonable revision.

Send them a message. VOTE NO ON MEASURE E.
