

Rebuttal to the Argument Against Measure M

This election brings the opportunity to see a brighter future for our students. While our opponent filed an argument against every school district in Solano County, Travis Unified School District (TUSD) voters understand supporting quality education is a wise investment.

When you **consider the FACTS, voting Yes on M is the obvious choice for our community.**

- **Measure M provides locally controlled funding to update our classrooms and schools to meet new educational standards.** All funds must stay in our community for our students – the State can't take one penny.
- **Strong schools support our community.** Over the last 2 years, many students and families struggled as everyone was being responsible to protect our community from COVID-19. Supporting our local schools now is more important than ever.
- **Measure M will ensure all local schools meet current health and safety codes.** Many of the District's schools are over 50 years old and in need of repairs and updates to ensure the health and safety of all students.
- **Measure M will upgrade classrooms and educational facilities to provide up-to-date classrooms** for core academics including math, science, technology, engineering, reading and writing.
- **Measure M requires mandatory fiscal accountability.** An independent citizens' oversight committee of local residents must review the use of funds and report their findings to the community. **Annual public disclosure of spending** is required.

Let's improve the quality of life in our community and protect the value of our homes.

Join us - Vote YES on M for strong schools and a strong community.
