COUNTYWIDE SITING ELEMENT (CSE): The California Integrated Waste Management Act of 1989 (AB 939), as amended (Section 40000 et seq. of the California Public Resources Code), requires each county to prepare a Countywide Siting Element that describes how the county, and the cities within the county, plan to manage the disposal of their solid waste for a 15-year planning period. The CSE must be approved by a majority of the cities containing a majority of the incorporated population in the county by City Council Resolution, the Solano County Board of Supervisors, and the California Department of Resources Recycling and Recovery (CalRecycle).
