

Cardiac Emergencies C-1 Shock

Support airway with the appropriate adjunct if necessary
Oxygen – Titrate to SpO₂ >95%
Cardiac Monitor – Treat dysrhythmias per appropriate protocol
 12 Lead EKG if STEMI is suspected
 If STEMI is confirmed, treat per Protocol C-14

If sepsis is suspected, report qSOFA score to the receiving hospital using the following table. This is to be only used as a tool for reporting sepsis to the receiving hospital and **NOT** to be used to call a sepsis alert.

Assessment	qSOFA score
Low blood pressure (SBP ≤100 mmHg)	1
High respiratory rate (≥ 22 breaths/min)	1
Altered mentation (GCS < 15)	1

DISRUPTED COMMUNICATIONS

In the event of a “disrupted communications” situation, Solano County Paramedics may utilize all portions of this treatment protocol without Base Hospital Contact as needed to stabilize an immediate patient.
