

Solano County Delinquent Prior Year Tax Bill | Important Information

This information will help you understand the enclosed delinquent prior year property tax bill. When secured property taxes (which include supplemental taxes) are unpaid on June 30th, they become a prior year delinquency and the taxes are considered to be defaulted.

Prior year taxes become a separate bill and the amount due is not part of your annual taxes that you may pay. If a message appears on the front of this bill stating "This Parcel is Power to Sell" the tax collector by law is required to attempt to sell tax-defaulted property at auction when the property becomes subject to sale. Property becomes subject to sale after taxes have been delinquent for at least 3 years for commercial property and 5 years for all other property. Please contact this office immediately if you see this message.
