Project Title: Addendum for the Wings Landing Tidal Habitat Restoration Project

Project Applicant: California Department of Water Resources

Project Location (include county): Suisun Marsh, Solano County

Project Description:

The Wings Landing Tidal Habitat Restoration Project is proposed by Natural Resources Group, Inc. (NRG) on behalf of the California Department of Water Resources (DWR) to be implemented under the Suisun Marsh Habitat Management, Preservation, and Restoration Plan (SMP) EIR which aims to restore tidal wetland and maintain managed wetland in the Suisun Marsh complex. See Attachment 1 for details.

This is to advise that the California Department of Water Resources has approved the above
 (Lead Agency or Responsible Agency)

described project on _____ and has made the following determinations regarding the above
 (date)
 described project.

1. The project [will will not] have a significant effect on the environment.
2. An addendum to an Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA. See attachment 1 for details.
3. Mitigation measures [were were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [was was not] adopted for this project.
5. A statement of Overriding Considerations [was was not] adopted for this project.
6. Findings [were were not] made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

See attachment 1 for additional details

Notice of Determination: Attachment 1

Provided below is information that would not fit in the identified text boxes for the Notice of Determination for the Wings Landing Tidal Habitat Restoration Project.

Project Title:

Addendum for the Wings Landing Tidal Habitat Restoration Project to the Suisun Marsh Plan Management, Preservation, and Restoration Plan Environmental Impact Statement/Environmental Impact Report.

Project Location:

The proposed project is located at the Wings Landing Duck Club within the Suisun Marsh Plan Region 1. It is bordered by Peytonia Slough to the north, Suisun Slough to the east, and Boynton Slough to the south within the Suisun Marsh in Solano County.

Project Description:

The Wings Landing Tidal Habitat Restoration Project (Proposed Project) is proposed by Natural Resources Group, Inc. (NRG) on behalf of the California Department of Water Resources (DWR). The Proposed Project would be implemented under the Suisun Marsh Habitat Management, Preservation, and Restoration Plan (SMP) which aims to restore tidal wetlands and maintain managed wetland in the Suisun Marsh complex. As a result, the Proposed Project is subject to the Environmental Commitments and Programmatic Conservation Measures as stipulated in the SMP, the SMP Environmental Impact Report/ Environmental Impact Statement (EIR/EIS), and the SMP U.S. Fish and Wildlife Service (USFWS) and National Oceanic and Atmospheric Administration, National Marine Fisheries Service (NMFS) Programmatic Biological Opinions (PBOs). The Proposed Project would restore approximately 267 acres of managed marsh, managed perennial channels, managed seasonal channels, and uplands to a tidal marsh ecosystem. The Proposed Project would reconnect the high order marsh-adjacent subtidal channels in Boynton, Peytonia, and Suisun Sloughs to the newly restored tidal and sub-tidal marsh within the Proposed Project site. Returning the Project Site to natural tidal influence would restore previously inaccessible managed marsh into spawning, rearing, and/or food production for Delta Smelt, Longfin Smelt, and salmonids within the north-central Suisun Marsh. The proposed project is consistent with the SMP and with the evaluation of environmental impacts in the SMP EIS/EIR. Construction of the proposed project would include cross berm enhancement, tidal channel restoration, channel plugs, creation of tidal depressions, water control structure removal, and levee breaches.

2. An Environmental Impact Report was prepared for this project Pursuant to the provisions of CEQA

An addendum to the SMP EIS/EIR was prepared for the project (i.e. Wings Landing Tidal Habitat Restoration Project) pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

Addendum is available as an attachment to the Notice of Determination on the State Clearinghouse website and is available upon request from frpa@water.ca.gov.

The Suisun Marsh Plan EIS/EIR is available for review at:

http://www.usbr.gov/mp/nepa/nepa_projdetails.cfm?Project_ID=781

The Suisun Marsh Plan was determined to have a significant effect on the environment, a mitigation reporting or monitoring plan was adopted, a statement of overriding considerations were adopted, and findings were made pursuant to the provisions of CEQA.
