QUALITY IMPROVEMENT PROGRAM OVERVIEW

The Quality Improvement (QI) unit is responsible for providing support services to the Mental Health Plan (MHP) and its administration, programs, providers, consumers and family members. The QI unit is designed to develop, implement, coordinate, monitor and evaluate performance activities throughout the Mental Health Plan (MHP).

QI Program Areas of Focus for FY 2016-2017:

The Quality Improvement unit continues its efforts to develop the quality improvement culture and activities within MHP programs so that there is a collective responsibility and owning of quality improvement throughout the MHP. Quality improvement, assurance and management are vital to the success of any health system, and this plan endeavors to create collaboration between program and quality teams in collecting and monitoring data, and utilizing data to incentivize and guide improvement efforts.

Quality Improvement continues to steer the MHP toward developing Work Plan goals that help the system to remain in compliance with Federal and California State regulations, most notably FCR Title 42, and CCR Title 9, as well as the parameters stipulated in Solano's MHP contract with California Department of Health Care Services. The following areas have been chosen and targeted by Quality Improvement to include in this year's Work Plan:

- Beneficiary Satisfaction and Protection
- Beneficiary and System Outcomes
- System Utilization Management
- Cultural Competence
- Program Integrity
- Quality Improvement
 - Utilization Review Audits
 - Credentialing
 - Provider Eligibility
- Service Timeliness and Access
- Wellness and Recovery

Quality Improvement staffing was finally again at capacity as of July of FY 2016-2017. It is our hope that these staffing levels can assist us to continue to take on the challenges of all areas covered by this Work Plan, including areas that are either newly required or have become of an increased area of focus in the new 1915b Waiver/associated terms and conditions, EQRO or DHCS Triennial System/Chart Review protocols.

Solano MHP has taken on the practice of treating the Quality Improvement Work Plan as the "treatment plan" for the MHP, and therefore it guides the various Quality Improvement Committee (QIC) subcommittees during their monthly efforts. Progress is tracked on a quarterly basis, and progress and data are reported back to the Quality Improvement Committee once per quarter to inform committee membership and obtain any feedback and recommendations from the committee for consideration to improve current practices.

D-1: Solano MHP will ensure that all children screened and identified by CWS will be assessed by Solano MHP and/or referred to Beacon for mild-moderate level treatment as part of the Pathways to Wellness initiative.

Baseline: See Q1

Goal: Improve the following measures:

- **#1:** 100% of those screened/referred to MHP will be either assessed and referred to MHP for Pathway services or referred to MCP for services.
- **#2:** 100% of Subclass members who are assigned an ICC Coordinator will receive an initial Child and Family Team meeting.
- **#3:** Solano will maintain a network with the overall capacity to serve clients who meet criteria for ICC/IHBS services (**Based on program average caseload size**).
